

MANAGEMENT SYSTEM CERTIFICATE

Certificate no.:
200361-2016-AHSO-IBE-RvA

Initial certification date:
11 March 2020

Valid:
14 June 2021 – 08 June 2022

This is to certify that the management system of
Autoridad Portuaria de Ceuta Entidad Publica
Muelle de España s/n, 51001, Ceuta, Spain

has been found to conform to the Energy Management System standard:
ISO 50001:2018

This certificate is valid for the following scope:

General services, as they are defined in the regulatory framework of the state-owned port system and management of port public domain. This definition includes the following services: Service for the planning, coordination, and control of both land and sea traffic in the port. Coordination services and control of associated operations to commercial and port services and other activities. Signaling, traffic guidance and other navigational aids that help ships to approach and access the port, as well as signals inside the port. Police services in common areas, without detriment to the powers corresponding to other administrations. Lighting service in common areas. Service to clean common land and sea areas. This service does not include cleaning of docks and esplanades as a result of unloading operations and cargo handling. Services for the prevention and control of emergencies, within the terms established by the regulations on civil protection, in collaboration with the corresponding administrations for civil protection, fire prevention and extinguishing, life-saving and the fight against pollution. Management of port public domain.
